

Travel a lot? Make it light.

Key benefits:

- A pocket computer that weighs just 46 grams
- Don't worry about leaving your computer unattended
- Don't lug around heavy laptops anymore
- Always stay productive on-the-go
- Zip through security-check

Change the way you compute.

In today's smart world, you should be able to connect and compute on the go. This belief led us to create a device that lets you do just that. The Air PC by Panache now brings you the smarter way to get work done.

Powered with Windows 10 and Intel Quadcore Processor, the Air PC comes with a 1 year advanced replacement warranty. Now, get everything that you wished for from a desktop computer in a palm-sized PC.
